PRODUCT LINE - Conversion Coating

Part Number	Temp Range	Substrate	Applications	Product Type	Product Line	Method
Calcium Modified Coating	150-170	Carbon Steel, Galvanized Steel	Paint Pretreatment, Rubber-Metal Bonding	Conversion Coatings	Freibond	Spray or Immersion
Ferrous Oxalate Immersion Coating	160-170	Stainless Steel	Extrusion, Stamping	Conversion Coatings	Formcoat	Immersion
Ferrous Oxalate Immersion Coating for High Chromium-Iron Metals	160-220	Stainless Steel	Drawing, Extrusion	Conversion Coatings	Formcoat	Immersion
Fine Crystal Zinc Phosphate Coating	125-135	Aluminum	Stamping, Extrusion	Conversion Coatings	Formcoat	Immersion
Heavy Zinc Phosphate Anti-Corrosion Coating	155-210	Carbon Steel	Protection	Conversion Coatings	Freibornite	Immersion
Heavy Zinc Phosphate Cold Forming and Anti-Corrosion Coating	Protection	Carbon Steel, Aluminum	160-180	Coatings	Freibornite	Immersion
High Quality Iron Phosphate Process	150-170	Carbon Steel	Paint Pretreatment	Conversion Coatings	Freibond	Spray or Immersion
High Temperature Rubber-To-Metal Bonding Coating	180-200	Carbon Steel, Galvanized Steel	Paint Pretreatment, Rubber-Metal Bonding	Conversion Coatings	Freibond	Immersion
High Weight Zinc Phosphate Coating	165-180	Carbon Steel	Drawing, Extrusion	Conversion Coatings	Formcoat	Immersion

Part Number	Temp Range	Substrate	Applications	Product Type	Product Line	Method
Immersion Conversion Coating	160-200	Carbon Steel, Galvanized Steel, Aluminum	Drawing, Extrusion, Paint Pretreatment, Rubber-Metal Bonding	Conversion Coatings	Freibond	Immersion
Immersion Zinc Phosphate Coating	170-200	Carbon Steel	Drawing, Extrusion	Conversion Coatings	Formcoat	Immersion
Immersion Zinc Phosphate Coating for Steel	160-200	Carbon Steel	Extrusion, Drawing	Conversion Coatings	Formcoat	Immersion
Immersion Zinc/Iron Phosphate Rust Preventative Base	175-195	Carbon Steel, Galvanized Steel	Protection	Conversion Coatings	Freibornite	Immersion
Iron Phosphate Cleaner Coating	60-160	Carbon Steel, Galvanized Steel, Aluminum	Paint Pretreatment	Conversion Coatings	Freibond	Spray or Immersion
Iron Phosphate Light-Duty Coating	80-160	Carbon Steel	Paint Pretreatment	Conversion Coatings	Freibond	Spray or Immersion
Iron Phosphate Uniform Cleaner Coating	80-160	Carbon Steel	Paint Pretreatment	Conversion Coatings	Freibond	Spray or Immersion
Lightweight Manganese Phosphate Coating	165-180	Carbon Steel	Protection, Wear resistance	Conversion Coatings	Freibornite	Immersion
Low Surface Micro Finish Coating	170-195	Carbon Steel	Drawing, Extrusion	Conversion Coatings	Formcoat	Immersion
Low Surface Microfinish Crystalline Zinc Phosphate Coating	150-170	Carbon Steel	Drawing, Extrusion, Paint Pretreatment	Conversion Coatings	Formcoat	Immersion
Low Surface Microfinish Zinc Phosphate Coating	150-170	Carbon Steel	Extrusion, Paint Pretreatment, Drawing	Conversion Coatings	Formcoat	Immersion

Part Number	Temp Range	Substrate	Applications	Product Type	Product Line	Method
Low Temperature Corrosion Resistant Cleaner-Coating Phosphate	80-160	Carbon Steel	Paint Pretreatment	Conversion Coatings	Freibond	Spray or Immersion
Low Temperature Iron Phosphate Cleander Coating for Steel	110-160	Carbon Steel	Paint Pretreatment, Cleaning	Conversion Coatings	Freibond	Spray
Low Temperature Iron Phosphate Cleaner Coating	80-135	Carbon Steel	Paint Pretreatment	Conversion Coatings	Freibond	Spray
Low Temperature Iron Phosphate Cleaner Coating for Mixed Metals	110-140	Carbon Steel, Galvanized Steel, Aluminum	Paint Pretreatment, Cleaning	Conversion Coatings	Freibond	Spray or Immersion
Low Temperature Iron Phosphate Coating for Carbon Steel	110-140	Carbon Steel	Paint Pretreatment, Cleaning	Conversion Coatings	Freibond	Spray or Immersion
Low Temperature Iron Phosphate Coating for Mixed Metals	110-140	Carbon Steel, Galvanized Steel, Aluminum	Paint Pretreatment, Cleaning	Conversion Coatings	Freibond	Spray or Immersion
Low Temperature Iron Phosphate Coating for multi-metals	Paint Pretreatment	Carbon Steel, Galvanized Steel, Aluminum	80-160	Coatings	Freibond	Spray
Low Temperature Iron Phosphate Coating for Steel	80-140	Carbon Steel	Paint Pretreatment	Conversion Coatings	Freibond	Immersion
Low Temperature Iron Phosphate Process	80-135	Carbon Steel	Paint Pretreatment	Conversion Coatings	Freibond	Spray
Low Temperature Iron Phosphate Uniform Cleaner	110 - 160	Carbon Steel, Galvanized Steel,	Paint Pretreatment, Cleaning	Conversion Coatings	Freibond	Spray

Part Number	Temp Range	Substrate	Applications	Product Type	Product Line	Method
Coating for Mixed Metals		Aluminum				
Low Temperature Zinc Phosphate Process	105-110	Carbon Steel, Galvanized Steel	Paint Pretreatment, Rubber-Metal Bonding	Conversion Coatings	Freibond	Spray or Immersion
Manganese Iron Phosphate Coating	200-210	Carbon Steel	Protection, Wear resistance	Conversion Coatings	Freibornite	Immersion
Nickel-Free Heavy Zinc Phosphate Coating	160-180	Carbon Steel	Protection	Conversion Coatings	Freibornite	Immersion
Phosphate-Free Cleaner, Conversion Coating, Corrosion Inhibitor	Paint Pretreatment	Carbon Steel, Galvanized Steel, Aluminum	Ambient-130	Coatings	Freibond	Spray or Immersion
Phosphate-Free Lubricant Carrier Coating	145-165	Aluminum	Drawing, Stamping, Extrusion	Conversion Coatings	Precoat	Immersion
Phosphate-Free Zirconium-Based Pretreatment Coating	Amb-120	Carbon Steel, Galvanized Steel, Aluminum	Paint Pretreatment	Conversion Coatings	Freibond	Spray or Immersion
Single Chemical Zinc Phosphate Coating	170-200	Carbon Steel	Extrusion, Metal Working	Conversion Coatings	Formcoat	Immersion
Single Chemical Zinc Phosphate Coating	155-165	Carbon Steel	Extrusion, Drawing	Conversion Coatings	Formcoat	Immersion
Tight-Grain Low Sludge Zinc Phosphate Coating	170-195	Carbon Steel	Drawing, Extrusion	Conversion Coatings	Formcoat	Spray or Immersion
Tight-Grain Zinc Phosphate Coating	170-195	Carbon Steel	Drawing, Extrusion	Conversion Coatings	Formcoat	Immersion
Uniform Zinc Phosphate Coating	170-200	Carbon Steel	Extrusion, Drawing	Conversion Coatings	Formcoat	Immersion
Uniform Zinc	160-200	Carbon Steel	Drawing,	Conversion	Formcoat	Immersion

Part Number	Temp Range	Substrate	Applications	Product Type	Product Line	Method
Phosphate Coating			Extrusion	Coatings		
Zinc Phosphate Conversion Coating	150-170	Carbon Steel, Galvanized Steel, Aluminum	Paint Pretreatment, Rubber-Metal Bonding	Conversion Coatings	Freibond	Spray or Immersion
